Safety KPI Progressive YTD

September 2026 | All safety indicators by plant | Validated events by event date

Plant		2026 YTD						September 2026					Budget 2026		
Plant	Country	Worked hours	Injuries	Days lost	Gravity rate	Frequency rate	First-aid rate	Injuries	Days lost	Gravity rate	Frequency rate	First-aid rate	Injuries	Gravity rate	Frequency rate
Valença - MAAP	N/A	75,243	0	0	0.00	0.00	13.29	0	0	0.00	0.00	N/A	0	0.00	0.00

Rates per 1,000,000 worked hours. First-aid rates: N/A = no worked hours recorded. Budget indicators are 0 when no budget data is available.

Reported Communications

Valença - MAAP (MAAP) | January - September 2026 | By submission date

Safety communication pyramid

Hierarchy of event types; band size is not proportional to volume.

REPORTED COMMUNICATIONS

4

YTD total | Month: 2
All communication types

Improvement communications

Shown separately from the safety hierarchy

5S improvements

YTD: 0 Month: 0

Improvement suggestions

YTD: 0 Month: 0

Includes submitted, pending validation and validated records; excludes rejected and invalid records. Injuries includes all accident severities.

Plant Closure & Follow-up

September 2026

Plant Closure & Follow-up

Valença - MAAP (MAAP) | YTD: 2026-01-01 - 2026-09-30

%
COMMUNICATIONS
CLOSED

100.0%

1 closed / 1 validated YTD
Month: N/A

% UNSAFE ACTS
CLOSED

N/A

YTD | Closed / validated unsafe acts
Month: N/A

% UNSAFE
CONDITIONS
CLOSED

N/A

YTD | Closed / validated conditions
Month: N/A

ACTIONS CLOSED
ON TIME

0.0%

Actions created in the YTD period
Closed by their due date

OPEN ACTIONS

1

Actions created in the YTD period
Open or ongoing now

PENDING
VALIDATIONS

3

Current snapshot
Submitted or pending validation

OPEN
COMMUNICATIONS

0

Current snapshot
Validated open or ongoing

CLOSED
COMMUNICATIONS

1

Validated YTD events now CLOSED
Month: 0

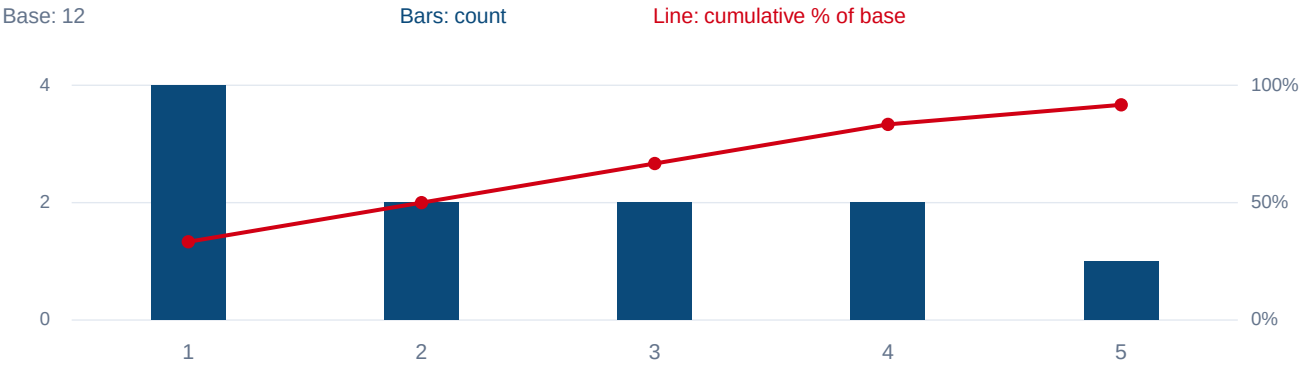

Plant closure percentages = communications in CLOSED status / all validated communications of the same type and period, including records without actions. YTD and month use event dates. N/A = no applicable denominator. Statuses are current at generation; snapshot counts include all dates.

Plant Top 5 - Pareto

Valença - MAAP (MAAP) | YTD: 2026-01-01 - 2026-09-30

Top 5 root causes

- | | |
|--|-----------|
| 1. 6.3 Weakness in design | 4 33.3% |
| 2. 2.1 Lack of concentration | 2 16.7% |
| 3. 2.3 Breaking rules for safety | 2 16.7% |
| 4. 6.4 Anomalous functioning of equipment / facilities | 2 16.7% |
| 5. 2.6 Failure to use PPE | 1 8.3% |

Top 5 unsafe act types

Base: 0 Bars: count Line: cumulative % of base

No classified records for this period.

Top 5 unsafe condition types

Base: 0 Bars: count Line: cumulative % of base

No classified records for this period.

Top 5 near-miss types

Base: 0 Bars: count Line: cumulative % of base

No classified records for this period.

Root causes: identified S-EWO root cause selections by analysis date. Type rankings: validated communications by event date, including unclassified records in the base. Cumulative shares use the full base, not only the Top 5.

Plant Communication Participation

Valença - MAAP (MAAP) | YTD: 2026-01-01 - 2026-09-30 | Validated communications by event date

Workers involved in communications

Top 5 | Base: 1 | Count and share

Workers with most communications submitted

Top 5 | Base: 1 | Count and share

Departments involved in communications

Top 5 | Base: 1 | Count and share

Departments with most communications submitted

Top 5 | Base: 1 | Count and share

Workstations with most communications

Top 5 | Base: 1 | Count and share

Dashboard basis: recorded involved worker, submitter employee number, employee department and workstation. Each chart uses its full classified base; missing fields are excluded. Percentages are not limited to the Top 5.
